教師的持續專業發展 Teachers' continuing professional development

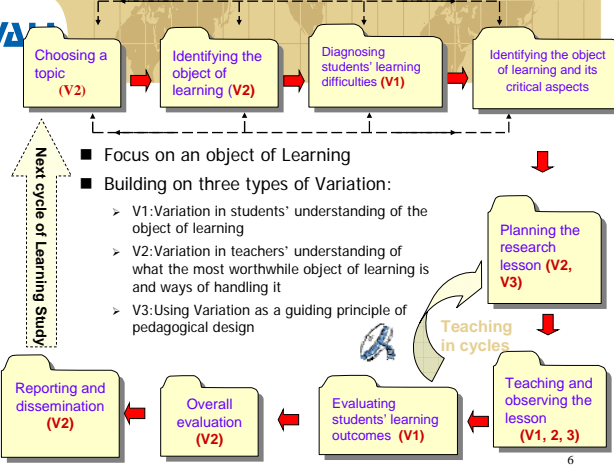

理論與實踐之間的鴻溝 The gap between theory and practice

「如果你希望改善教學，最有效的就是在課堂開始。這樣，把研究成果運用於課堂實踐的問題也就迎刃而解了。」

“If you want to improve teaching, the most effective place to do so is in the context of a classroom lesson. If you start with lessons, the problem of how to apply research findings in the classroom disappears.”

James W. Stigler & James Hiebert, 1999, *The Teaching Gap*
